

Upgrade your voice connectivity with secure, scalable, cloud-powered SIP service.

SIP Trunk

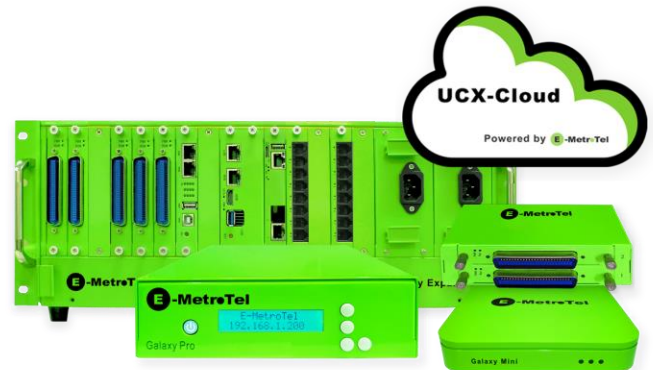

Perfect For:

IT teams and businesses that need cloud-ready communication, reduced telco costs, and a clear migration path from legacy PBX systems.

Simplify Your Connection to the World:

- ✓ E-MetroTel SIP Trunk Service replaces traditional phone lines with a smarter, more flexible way to connect.
- ✓ Built on secure AWS infrastructure and backed by multi-vendor expertise, it delivers reliable voice, messaging, and emergency services for organizations of every size.

Why Choose E-MetroTel SIP Trunk?

Unlimited Calling – U.S. & Canada minutes included, competitive global rates

Scale as You Grow – 2 to 1,000+ concurrent calls

Failover & Resilience – Automatic routing to backup trunks or numbers

Multi-Vendor Support – Works with Avaya, NEC, Panasonic, Mitel, Cisco, Nortel & more

Cloud Reliability – Built on AWS with geo-redundant soft switches

911 Compliant – FCC/CRTC compliant with E911/NG911 registration & on-site alerts

Fast Provisioning – Activate in minutes through an intuitive online portal

Real Support – Live engineers assist with setup and porting

Number Porting & New DIDs – Keep existing numbers or add U.S./international DIDs

Text-to-Omnichannel – Enable SMS/MMS through your SIP number
