

Infinity 7000 Series Smart Desk Phones

Empower Your Workspace. Transform Everyday Communication.

The Infinity 7000 Series delivers fast, secure, and modern communication with a reliable Linux platform that outperforms Android-based desk phones. With HD voice, a smooth touchscreen experience, and seamless InfinityOne integration, it gives teams clear calls, simple navigation, and effortless connectivity. Built for long life and low total cost, the 7000 Series provides a future-ready solution that boosts productivity and keeps every department communicating with confidence.

Why Choose the Infinity 7000 Series?

Secure, Purpose-Built Linux OS

A hardened Linux operating system designed specifically for business communications. No unnecessary apps, no mobile OS compromises, and long-term platform stability.

Seamless Cloud Communications

Instant auto-provisioning with calling, voicemail, conferencing, and presence through the E-MetroTel cloud platform, powered by Infinity One for a full unified communications experience.

Professional HD Voice Quality

Tuned audio components, noise optimization, and wideband codecs deliver clear, natural conversations in any environment.

Reliable Performance Over Time

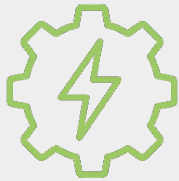

Avoids the slowdowns, crashes, and security exposure common in Android-based desk phones. Built to perform consistently year after year.

Designed for Today's Workplaces

The Infinity 7000 Series is ideal for corporate offices, call centers, hospitality, healthcare, education, and customer service environments. From reception desks to executive offices and frontline teams, each model delivers dependable performance with a clean, modern user experience.

Built for Performance. Designed for Modern Teams.

The Infinity 7005H – The Essential Touchscreen Business Phone

Compact design. Clear communication. Everyday usability.

Infinity 7005H – Available Now!

With a compact 5" HD portrait touchscreen and integrated handset, the 7005H delivers a simple and intuitive calling experience. Designed for everyday communication, it fits perfectly in shared desks, reception areas, education offices, healthcare stations, and other high-traffic business environments.

Key Features:

- 5" HD portrait touchscreen
- Integrated handset for familiar call handling
- Built-in HD camera for video communication
- Compact footprint
- Designed for shared and high-activity environments
- Intuitive interface for fast adoption and minimal training
- Multi-position stand and wall mountable

The Infinity 7008H – Full-Screen Touchscreen Business Phone

Expanded display. Advanced workflows. Future-ready.

With a spacious 8" HD landscape touchscreen and integrated handset, the 7008H provides expanded screen real estate for soft keys, workflows, and video communication. Built for busy desks and feature-rich roles, it delivers a modern experience while maintaining the comfort and familiarity of traditional handset-based calling.

Key Features:

- 8" HD landscape touchscreen
- Integrated handset for comfortable, everyday calling
- Built-in HD camera for video calls and meetings
- Large display ideal for high-volume workflows and feature access
- Designed for professional and shared workspaces across industries
- Streamlined navigation for faster task completion
- Stable desktop design for consistent daily use

Infinity 7008H – Available Now!

The Infinity 7208 – The Flexible Collaboration Video Device

One device - many roles.

Infinity 7208 – Coming Soon!

With an adjustable 8" HD touchscreen, built-in camera, and adjustable stand, the 7208 is designed for modern video communication and collaboration. Its handset-free, headset-first design adapts easily to call centers, meeting rooms, personal desks, and hybrid work environments.

Key Features:

- 8" HD touchscreen ideal for video and collaboration
- Built-in HD camera for face-to-face communication
- Handset-free design for speakerphone and hands-free workflows
- Ideal for meeting rooms and collaboration spaces
- Adjustable stand for optimal viewing and camera angle.
- Designed for video-first and hybrid work environments

The Infinity 7000 series phones are available in black or white.
